EDUCATION

MASTER OF SCIENCE IN COMPUTER SCIENCE

Jan. 2022 - Dec. 2023

University of Texas at Arlington

Relevant Coursework: Big Data Management; Networking; Software Engineering, AI/ML.

BACHELOR OF ENGINEERING IN COMPUTER SCIENCE AND TECHNOLOGY

Aug. 2016 - May. 2020

Maharaja Sayajirao University of Vadodara

Relevant Coursework: Design and Analysis of Algorithms; Data Analysis; Software Engineering; Artificial Intelligence.

SKILLS SUMMARY

Languages: JavaScript, TypeScript, C#, HTML, CSS, Python3, Go, C, C++, Java, Swift, SQL, R, PHP.

Frameworks: React, .NET, Angular, MVC, Vue, NodeJS, ExpressJS, Unreal, Next, Tailwind, ElectronJS, Ionic, WordPress, Bootstrap, Spring, Flask, Sanic, Django, Git, REST API.

Platforms: Android Studio, Xcode, Xbox, PlayStation, Jira, SharePoint.

Databases: MongoDB, DynamoDB, Oracle SQL, SQLite, MS SQL, pgAdmin, PostgreSQL.

Cloud: AWS, GCP, Amazon SNS, FireBase.

WORK EXPERIENCE

ELECTRUM IT SOLUTIONS PVT. LTD.

Jan. 2021 - Oct. 2021

Software Engineer (Web Engineer)

- Orchestrated the delivery of four cutting-edge Progressive Web Applications (PWAs) for web and mobile, harnessing technologies such as ReactJS, Angular, ExpressJS, Python, and PHP, meeting diverse client demands.
- Designed fully responsive, interactive, and user-friendly interfaces, driving a remarkable 25% increase in user engagement and overall satisfaction.
- Achieved a 100% on-time delivery rate, consistently delivering projects within defined timelines and budgets, garnering client accolades for exceeding expectations.
- Fostered seamless collaboration across cross-functional teams, including design, clients, and senior management, nurturing robust professional relationships and ensuring project success.
- Spearheaded the development of five compelling demo projects and proof of concept initiatives, playing a pivotal role in elevating company growth and market presence.

VINROX TECHNOLOGIES LLP

Jun. 2020 - Jan. 2021

Software Engineer

- Led the development of cutting-edge web applications using React, Node.js, and MongoDB, achieving high-performance outcomes and introducing innovative features.
- Seamlessly integrated seven third-party APIs for payment gateways and shipping services, bolstered by stringent security measures to safeguard user data.
- Strategically optimized website performance based on data-driven insights, resulting in a remarkable 20% increase in user engagement.
- Collaborated closely with cross-functional teams to successfully launch three complex projects, emphasizing user-centric design principles and delivering high-quality code.

Software Engineer Intern

May. 2019 - Jun. 2020

- Collaborated effectively in the construction of eight dynamic web applications, utilizing React, Node.js, and MongoDB, gaining hands-on experience throughout the software development lifecycle.
- Integrated nine third-party APIs with rigorous security measures to ensure the integrity of user data.
- Enhanced teamwork and communication skills through active coordination with developers, designers, and project managers across multiple projects.
- Elevated client interaction skills, providing project updates and insights while refining the ability to communicate technical details effectively to non-technical stakeholders during participation in technical workshops and seminars.
